

# Lokman Bin Khodziri

## Junior Full Stack Developer

Penang, Malaysia • lokmankhodziri@gmail.com • linkedin.com/lokmankhodziri • lokmankhodziri.vercel.app

Highly motivated and results-oriented aspiring Fullstack Developer with a strong foundation in HTML, CSS, JavaScript, and a passion for creating user-friendly web experiences. Currently pursuing a degree in Information Technology and actively expanding my skillset with frameworks like React and Node.js.

## WORK EXPERIENCE

---

### Jinko Solar, Perai, Malaysia

2022 - 2024

#### Assistant Process Engineer

- Led process control, evaluation, and improvement for laser applications in solar cell production at Jinko Solar, ensuring all processes met specifications and optimizing front-end cell quality.
- Identified and resolved root causes of product and machine abnormalities, contributing to efficient production and high-quality solar cells. Supported production line in troubleshooting and resolving process/quality issues related to laser applications, implementing improvements that enhanced efficiency.
- Maintained and ensured optimal condition of laser application equipment.
- Previously held responsibilities in the Diffusion and Oxidation section, demonstrating adaptability and a well-rounded understanding of solar cell manufacturing.

### JA Solar Malaysia, Bayan Lepas, Malaysia

2018 - 2022

#### Process Technician

- Maintained a high-quality standard in solar cell front-end processes at JA Solar's cleanroom, ensuring all procedures met specifications.
- Identified and resolved root causes of product and equipment anomalies within the cleanroom, contributing to efficient production.
- Collaborated with production line personnel to troubleshoot and improve process/quality issues in the cleanroom, optimizing production efficiency.
- Performed routine maintenance tasks to ensure optimal equipment functionality within the cleanroom.

## EDUCATION

---

### Open University Malaysia, Seberang Jaya

2019 - 2025

Bachelor's Degree in Information Technology

### Politeknik Tuanku Syed Sirajuddin, Pauh, Perlis

2013 - 2017

Diploma in Electric Electronic ( Communication )

## SKILLS

---

**Front-End Technologies:** HTML, CSS, JavaScript

**Frameworks:** React, Node.js

**Databases:** MongoDB, Firebase

**Version Control:** Git

**Additional Programming Languages:** Python, Java, C

**Soft Skills:** Collaboration, Communication, Problem-Solving
